

## System Requirements for operating Openings Studio

### USERS COMPUTER

1. The latest **Java 32-Bit** runtime

<http://www.java.com>

2. **DirectX** and **C++** runtimes which are installed with Openings Studio Installer

<http://www.architectsdesignstudio.com/ADS/DX/index.html>

3. Computer Requirements are the same as Revit

<http://usa.autodesk.com/revit/system-requirements/>

### Local Area Network

1. No holes need to be open on the firewall due to Openings Studio communicates only on port 80.
2. Some Firewalls/Proxy Servers will terminate some data streams if the Server is doing Packet Inspections. The website <http://www.architectsdesignstudio.com> must be put in the Whitelist of the server to eliminate termination of data stream.
